

Amarie

I have been in the program for eight years. My favorite part of The Job Foundation is how they help us handle our money which helps me a lot as I get older. The most valuable thing I have learned in The Job Foundation is types of banking and financial information. Once I graduate, I will be attending DMACC in the fall to become a doctor.

DeJuan

I have been in The Job Foundation program since I was in elementary school. One of my favorite parts of the program was getting to shop on Shopping Day and being around others in the program. One valuable thing I have learned through The Job Foundation is that money is something you should save, so you can have a better life in the future. After I graduate, I plan to attend college.

Devontez

I have been in The Job Foundation program since I was in elementary school. My favorite part about The Job Foundation is the activities we have participated in, such as the UNI Dome. For me there isn't a most valuable thing that I have learned because they have all been valuable to me and helped me learn things I didn't know. After I graduate, I plan to attend Hawkeye Community College.

Karma

I have been in The Job Foundation program since I was in elementary school. My favorite part of the program was Wellness Night at the WRC. I always got the best sleep when we came back from the event. During my time in the program, I have learned how to save money, the difference between wants and needs, and the benefits of giving. After I graduate, I plan to enter the workforce, find my own living space, and potentially attend college.

Kailah

I have been in The Job Foundation's program since 2013. One of my favorite parts of The Job Foundation's program was the Nature Day event because we could do outdoor activities that we normally don't get to participate in. During my time in the program, I have learned the value of money, and the importance of spending it wisely and building your savings. After high school, I plan on entering the workforce. My hope is to one day pursue becoming a tattoo artist.

Yasmin

I have been in The Job Foundation program since I was in elementary school. One of my favorite parts of the program was Nature Day because I was able to spend time outside with my family and friends. During my time in the program, I have learned the importance of budgeting and how to build credit. After I graduate, I plan on attending a beauty school to become an esthetician.
